

PANZER DRAGON ZWEI

As an added bonus (it's great, really), you can kill yourself during the game by pressing L+R+A+B+C at the same time. Okay, so it sounds useless, but if you're aiming for the maximum 100% kill ratio and you miss an enemy, you can use this to restart the level, rather than waiting for the baddies to kill you.

NIGHT WARRIORS

Not only is the regular game completely brilliant, these cheats are fantastic! If you go the options screen and highlight the speed option and press X, X, Right, A, Z quickly (Akuma's hidden firecracker move in SF Alpha), you'll be able to move the speed stars up to 8. This makes the game ridiculously fast and difficult to control, but it's great fun!

Who wants to play games at turbo speed? Not us! Use this cheat to boost it to the hyper-fast turbo speed aight!

If you highlight the key configuration option and press B, X, Down, A, Y quickly (Anakaris's ex-special), an new option will appear – Appendix. Select this to get loads more options, including one to turn on the full arcade animation when two of the same character are fighting each other. Also, a complete version of the original Darkstalkers – the version appearing on PlayStation – can be selected, along with all the original backgrounds!

Select the "Classic" options to turn the game into the original Darkstalkers!

GUARDIAN HEROES

To find the hidden challenge at the coliseum, play through until you reach levels 3, 4 or 5. Keep running to the right, only stopping to beat people up when the screen stops scrolling. Move into the distant plane and keep running until the end of the stage. You'll notice a small wooden sign, and when you reach it, you'll skip to the coliseum. If you accept the challenge, you'll fight against gangs of enemies until you want to leave, meaning that you can build your experience levels up early on in the game!

See that little wooden signpost on the right? Run straight through the level to it and you'll enter the hidden coliseum challenge shown here in the right.

To transform Han into Super Han, you'll need to collect the second magical sword from the One-Armed Undead warrior on level 8. From the start of the game, always choose the last option at the end of the levels to get to stage 8, and beat the warrior to turn into Super Han. He looks the same as before, only he gets loads of extra experience points, making him faster and more powerful.
