### The Ultimate Code

### Watch the Hard Ending

At the easy game options screen enter up, up, down, up, left, left, right, left, down, down, up, down, right, right, left, right. This is useful for some of the codes above.

## OUTRUN

### Better Grip

Hold A and C and go to options and then check out the Cornering mode in the bottom of the screen. If you set to easy, you get better cornering, oddly enough.

### Arcade Credits

During the Sega logo, press 2P controller's A+C+START, then you can "input money" as in the arcade by pressing the L button on the player one pad. Also, you can now continue. Just like the coin-op.

### Smooth Mode

Go to the options screen and select mode (overseas, Japan). Hold down A and C and press left or right. Now you get two extra modes: Japan (smooth) and Overseas (smooth). In smooth mode the game runs at 60 frames per second.

Play Outrun at 60 frames per second - double the update speed of the original arcade machine!

## PANZER DRAGON ZWEI

### Pandora's Box

When you beat the game go to the option screen and you will see the option for Pandora's Box. If you turn it on you won't be able to access your save games though. It will allow you to select various options such as your dragons growth size, different weapons, and stage select plus a new level. The better you do in the regular game, the more options you'll be able to select from.

### Get all of the options available in Pandora's Box

To get all the options you need to beat the game with a 100% score and a rank of Winged Death.

### Open all of Pandora's Box

After playing the game for 30 hours all the options in Pandora's Box will open up to you.

### Space Harrier and Dragon Mode

Once all options are open in Pandora's Box go to the life selection. Choose Lundi for Space Harrier Mode and Lagi for Dragon Mode

### Analogue Trick

While using the Analogue joystick set to circle (analogue mode) you can turn the dragon's head with the standard non-analog control pad. It's mildly entertaining, albeit useless.

### Double Speed!

To speed the game up to double,

go to the title screen and press Left, Right, Left, Right, Up, Down, Up, Down. Now when you play, the game will be extra fast and harder than before. To get ??????????, go to the title screen and press Left, Right, Right, Left, Right, Left, Right, Up, Down, Left, Right.

If you don't own this game, you really must be quite mad. There's NOTHING like this on PlayStation. It's a work of genius!
